Career Objective

Computer Science undergraduate specializing in AI & ML, seeking a challenging position in a reputed organization where I can apply my academic knowledge and technical skills, contribute effectively to team success, and grow professionally while building scalable, real-world solutions.

Education

United College of Engineering and Research, Prayagraj

2022-Present

Bachelor of Technology, Computer Science and Engineering (AIML)

6.6 CGPA

Y.M.C.A. Centenary School & College, Prayagraj

12th standard | 2022 | CBSE

60.1%

10th standard | 2020 | CBSE

67.1%

Experience

- **Artificial Intelligence Intern – Codec Technologies Pvt. Ltd. (Jun 2025 – Jul 2025)**
 - Completed AICTE & ICAC approved internship with hands-on exposure to AI concepts and real-world applications.
- **Web Development Training – Techkriti, IIT Kanpur (2024)**
 - Completed hands-on training in HTML, CSS, JavaScript, and responsive web development with practical project exposure.

Academic Projects

- **AI Recipe Generator**
 - Developed an AI-powered web application during internship to generate recipes from text or food images using GPT-based models, including ingredients, cooking steps, and nutrition details.
 - Reduced time and effort required for users to discover suitable recipes
Tech Stack: React.js, JavaScript, HTML, CSS, Flask (Python)
- **Attendance Management System**
 - Developed a web-based application during training to automate attendance tracking and reporting, reducing manual work and improving data accuracy.
Tech Stack: React.js, JavaScript, HTML, CSS, Flask (Python)
- **Fake Review Detection Agent**
 - Built an NLP-based fake review detection web application using BERT, TF-IDF, and Logistic Regression. Implemented review classification with confidence scoring and deployed the project on Render and Vercel.
 - Developed frontend and backend integration using React.js and Flask.
 - **Tech Stack:** Python, BERT, NLP, Flask, React.js, TF-IDF, Logistic Regression
- **Team Task Manager**
 - Developed a full-stack MERN web application for managing team projects and tasks with role-based authentication, task assignment, status tracking, overdue task monitoring, and notification features.
 - Implemented secure REST APIs, responsive dashboard UI, and project/member management functionalities for efficient team collaboration.
 - **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT

Certifications and Achievements

- **Artificial Intelligence Intern – Codec Technologies Pvt. Ltd**
- **Web Development Training – Techkriti, IIT Kanpur**
- **Java Programming Summer Training – UCER Prayagraj**

Skills

- **Languages:** C, Java, Python, SQL
- **Frameworks/Libraries:** React.js, Flask
- **Tools:** Visual Studio Code, GitHub
- **Core Skills:** Data Structures & Algorithms, OOPs, DBMS, Problem Solving
- **Soft Skills:** Teamwork, Communication, Adaptability, Time Management
